

## Get to know us

The Association of Xenion Alumni is a valuable network for graduates of Xenion High School. Former students have the opportunity to build and maintain strong relationships, remain faithful to the values held by Xenion Education and organise and participate in a variety of social and educational events. Xenion Alumni is supported by the management of Xenion High School. What we envision is to make Xenion Alumni an immense network of professional contacts – all with whom we already have one thing in common! We are graduates of Xenion High School and thus a large and powerful community, which has a strong social influence.

## Why join

- > We can advertise and promote our business or our work.
- > We can cooperate and network with other professionals.
- > We become part of a huge professional network.
- > We contribute to the community in our area.
- > We get in touch with old friends and we make new ones.

## **Our future plans**

### **Xenion Alumni Business Register**

We would like to create a Business Register, where all Xenion Graduates' businesses and workplaces will be published in our section on the Xenion website. Xenion Graduates will have access to it by entering their log-in code. This way, we can advertise and promote our business or work among Xenion Graduates and thus network and help each other. Business owners can offer discounts and special offers to other Xenion Graduates!

### **Registration to Xenion Alumni upon graduation**

Xenion's Year 7s will have the chance to register to Xenion Alumni upon graduation and thus get informed first-hand about all the opportunities that open up for them as members of our Association!

### **Careers events**

Xenion Graduates are invited to Xenion annual Careers Event to speak to students and share their knowledge and experience. Xenion Alumni will organise other special events with Xenion Graduates as key speakers. That way, graduates will be able to help younger students and promote and create awareness of their profession or any other subject important to them.

### **Internship schemes**

Xenion Graduates who own a business and are part of Xenion Alumni Business Register can take part in our internship scheme to recruit Xenion students for the summer months. By doing so, Xenion Graduates will be able to help students find out if their profession is suitable for them and to create awareness for their own work.

### **Mentoring programmes**

Xenion Graduates who are studying abroad or are already working can mentor current students at Xenion by advising them and helping them with their options regarding subjects, courses and universities. Knowing how student life in a foreign country can be, is something really important that we are all aware of and can help with!

### **Advertising campaigns**

Through our Facebook page and our Online testimonials campaign, we can promote and advertise our business and our work as professionals in our field.
