ARTWORK BY
KSENIIA ZAITCEVA | YEAR 5

Welcome from the Director

It is with the greatest pleasure that I welcome you to the *21st edition of the Xenion High School magazine, Ithaki*.

In Greek literature, Ithaki represents the culmination of life's journey by discovering the way to the place where one truly belongs. Our aim as a school is to provide our students with the skills and qualities they will need to set off on their life's journey, in search of their own 'Ithaki'.

This publication is a gazette; it is a journal of the incredible work carried out by students and teachers alike during the academic year. It is a testament to our students' academic endeavours and initiatives, but also to the many different ways in which they are encouraged to develop other invaluable qualities such as creativity, respect, kindness and empathy – qualities they will take with them beyond their school years.

The pages of this magazine demonstrate our fundamental belief that education does not begin and end in the classroom, but that it encompasses every aspect of human experience. It is for this reason that we aim to give our students as many opportunities to 'learn' both in and outside of the classroom.

This year was another challenge for schools, our country and indeed the world, as we dealt once more with the measures and restrictions of the ongoing global pandemic as well as with the war in Ukraine. I am proud to say that our school responded effectively to all these challenges, creating a safe space for our students both physically and emotionally, whilst also ensuring that their schooling continued without disruption.

I would like to thank and congratulate everyone who has worked to make this possible. I congratulate our teachers for their dedication and commitment to providing the best possible education to our students. I congratulate our support staff for facilitating and ensuring the smooth day-to-day running of the school. ***But most of all, I congratulate our students. They are the people that breathe life into our school. They are the ones who make all our efforts worthwhile. It is our students that Ithaki applauds and celebrates.***

Mr. George Demetriou, Senior Officer at Famagusta Traffic Division, is one of our first guests every year and we appreciate his annual visit to our school. Their message is a simple yet powerful one – speed and carelessness kill people; especially young people; and driving safely is essential.

THE IMPACT OF WARS

Students presented the negative impact of all wars in a very powerful and emotional performance.

This year was difficult for so many people around the world who lost their homes, families, and more, due to war. This has influenced our school community as well so our students felt the need to make this performance come alive and express their feelings.

School Celebrations & National Anniversaries

SEPTEMBER 2 BLESSING CEREMONY

Our new academic year at Xenion began, as usual, with the Blessing Ceremony but this was far from being our usual ceremony. Restrictions in place because of the Covid 19 pandemic meant that we had to hold the Blessing Ceremony outside. We did so on the 2nd of September, with Father Avgoustinos officiating, assisted by Father Herakleidos and Father Nikolaos. It was actually a very touching ceremony on a bright, fresh morning and everyone was beautifully behaved.

OCTOBER 28 NATIONAL ANNIVERSARY OF 28TH OCTOBER 1940

A special Assembly was held on Wednesday 27th October, during which students presented a dramatic and musical commemoration of this important national anniversary. MAY 28 **“Η ΔΙΚΗ ΤΗΣ ΑΝΟΙΕΗΣ”** **THEATRICAL PERFORMANCE**

Our talented students took part in a performance organised by Heliopolis Youth Culture.

National and International Participation

Xenion High School has always encouraged students to be active on the international stage, as benefits young people who wish to take their place in the wider world. As a result, our school, our town and our country are well represented in many international settings by Xenion students – both in teams of delegates and as individuals. The value of the life-skills such as problem-solving, negotiating and planning that are learned from such experiences cannot be overestimated and the understanding, tolerance and insight that students gain from international experiences are vital qualities in those who will lead our country in the future.

Political bodies such as the European Youth Parliament foster an understanding of the relationship between state and citizenry and an appreciation of the complexities of government. Through numerous initiatives, students work with their peers from other countries in the building and promotion of friendship and co-operation and the mitigation of prejudice and insularity.

Obviously, the Coronavirus pandemic has severely limited international movement over the past two years but Xenion students have taken part as much as they could under the circumstances – especially during periods of less-restricted movement - and they have participated remotely whenever possible. In some cases, students were chosen to take part in events which were subsequently postponed or cancelled. However, this does not take away from the pride the school feels in the fact that they were chosen in the first place.

EUROPEAN YOUTH PARLIAMENT - 9TH EYP MINI SESSION

Xenion Debate Club members took part in this and fielded a substantial team from across the Upper School.

Congratulations to our amazing team that won praise and most of the votes at the Session in Larnaca and was ranked NUMBER 1, after 9 hours of debating.

MEDITERRANEAN MODEL UNITED NATIONS (MEDI. M.U.N.)

Medi.M.U.N. offers a unique experience to young people as they meet and debate issues of real importance in today's world. Young Cypriots are asked to represent the interests of countries and communities other than Cyprus. The insights they gain into how the wider world has different needs and priorities from their own, together with the confidence in their ability to put forward a point of view in a cogent and articulate manner that they develop as a result of their participation, are assets that will serve them well in their future studies and careers.

Students from our school participated in a preparation workshop for the Medi.M.U.N. Conference.

Good Causes & Charitable Giving

Xenion High School is more than just a school. It is a part of our community, our town, our country and our world. Our students realise that they are, in many ways, lucky to have all the advantages that they do and that not everyone is so lucky. This understanding lies at the heart of the school's long-standing and enthusiastic commitment to raising both funds and awareness for a wide range of good causes. Our school has, indeed, been so successful in charitable fundraising that we have been presented with a certificate by the Pancyprrian Volunteerism Coordinative Council in recognition of our outstanding charity work throughout the years.

Our School Council has always been committed to working for the benefit of not only Xenion students but also of the wider community and they have an admirable record of contributing to that community by helping local families in need. Educational Visits & Trips

Throughout the year, Xenion students make educational visits to a wide variety of institutions and businesses.

Once each term, Years 1 to 7 go out on day-trips. The trips are designed to be fun but also to contain experiences of cultural, aesthetic and historical interest. This might be a visit to a gallery or museum, a visit to an historic site or an experience of the traditional Cypriot culture and way-of-life. The whole school decamps on visits to various locations around the island (Nicosia, Larnaca, Limassol, Famagusta).

It is a chance to relax and for students and teachers to get to know each other a little better.
